Baby's First Year Portrait Plan

Ask any parent and they will tell you that the first year in your baby's life will fly by faster than you can imagine.

Let me ask you a question ~ Would you love portraits of your child that are so perfect and so real that you can almost feel his little heart beating? Portraits of her adorable face and sweet smile where you can actually see the absolute love that she has for you, and you for her? Portraits that bring joy to your heart and soul every time you see them?

Our baby plan is designed to do just that!

But first, here is what you don't get:

There is No Standing in long lines, No Crowds, No Rushing or Lack of pose options, No High pressure sales tactics and No Forcing you to take a package of poses you don't like.

What Does It Include?

- o 4 Customized Photography Sessions
 - Select Newborn, 4, 8, 12 months **or** 3, 6, 9, 12 months
- o Complimentary 10x20 Year In Review Portrait Panel
- o Your own private appointment for review of your session, we will help to you customize a package that fits **YOUR** needs.
- o Time ~ Baby's require flexibility. Unlike chain studios we always schedule plenty of session time. So that you **NEVER** feel rushed!
- o Special Pricing ~ Discounted pricing just for Baby Plan Members

Our Baby's First Year Portrait Plan is available to you for the promotional price of just **\$89!**

But only if you act fast! There are hundreds of babies born each month in North Central Florida, and unfortunately we can't photograph them all. So we've had to put a limit on the number of babies we can accept each month at this promotional price. Don't miss out, call the studio today.
